

Hamilton Relocations cannot transport anything that is listed as a Dangerous Good (as per NZTA Land Transport Rule: Dangerous Goods 2005)

Dangerous Goods are items that have explosive, flammable, toxic, infectious, corrosive, or environmentally hazardous properties.

Dangerous goods are marked or labelled to identify their hazardous properties. They will likely have a diamond-shaped class warning label on them; examples of this can be seen below:

<p>Class 1: Explosive</p>  <ul style="list-style-type: none"> • Ammunition • Flares • Fireworks 	<p>Class 2: Flammable Gases</p>  <ul style="list-style-type: none"> • Oxygen • Acetylene • L.P.G 	<p>Class 3: Flammable Liquids</p>  <ul style="list-style-type: none"> • Petrol • Paints • Turpentine 	<p>Class 9: Miscellaneous Dangerous Goods</p>  <ul style="list-style-type: none"> • Matches • Magnesium • Phosphorus • Methylated Spirits • Methane Black • Flammable Solids • Scuba Tanks*** • Gas Cylinders *** • Aerosol Cans • Explosive Devices • Life Rafts • Butane Lighters • Home Soft Drink Makers <p>*** These can travel if professionally purged first. Please keep your receipt or certificate of purging, to show our team.</p> <p><i>Please exclude all organic matter, such as perishable food items, composts, animal skins, or any other items that may rot or permeate smell</i></p>
<p>Class 5: Oxidising Substances</p>  <ul style="list-style-type: none"> • Calcium Hypochlorite • Ammonium Nitrate • Sodium Nitrate • Hydrogen Peroxide • Fire Lighters Powder 	<p>Class 6: Poisonous & Toxic Substances</p>  <ul style="list-style-type: none"> • Pesticides • Weed Killers • Photographic Developers • Arsenic 	<p>Class 8: Corrosive Substances</p>  <ul style="list-style-type: none"> • Oxides • Caustic Soda • Hydrochloric Acid • Sulphuric Acid
